Torch Browser is a free and lightweight web browser created using the Chromium source code. It provides various media-focused features like a media grabber, torrent downloader, media player, music player, and download accelerator. Users can also download and play free games with the app. Developed by Torch Media Inc, the internet browser has a sleek design that is easy to navigate and use. It also features an easy share functionality that lets users share content and media to social media sites like Facebook and Twitter without switching tabs or windows. The application is quite popular and serves as a great alternative to other web browsers like Google Chrome, Microsoft Edge, Torch Browser, UC Browser, and Chromium. A media-focused web browser for Windows Torch Browser is a free web browser that is based on the Chromium source code. Users who have used Google Chrome, or other Chromium-based browsers, will find the interface of Torch very familiar. The only difference is that this new web browser is media-focused, allowing users to easily download audio files, movies, and shows. While there are many positive points about Torch Browser, there are a few drawbacks as well. For starters, the internet browser is incompatible with several Google Chrome extensions. That means you won't be able to extend Torch's capabilities using extensions that you're constantly relying on. Furthermore, if you wish to use Torch Browser's built-in movies app, you will have to give access to a third-party VPN app. How do I use the Torch browser? Since Torch Browser runs on the widely used Chromium platform, its interface and features are similar to many popular web browsers. Once the installation is complete, the browsers will give you the option to import your bookmarks and widgets, as well as your saved passwords and history. While Torch Browser doesn't take up too many system resources and offers fast search speed, there are instances when it may slow down. This happens when you use its media downloader or the torrent function. Both of these features take up bandwidth and can slow down the speed of the web browser, regardless of the speed of your internet connection. What are the features of the Torch browser? Torch Browser download for PC features various tools and functions that can help you download video and audio files with a click of a button. The app's Media Grabber feature lets you quickly download any song or movie without facing any trouble. You can easily run these files on the Torch Player - a built-in tool that runs almost all audio and video formats. Additionally, the browser has a built-in music app called Torch Music that gives users access to thousands of songs from artists around the world. You can also use this feature to create playlists and share them with your friends. To send a file to a friend, all you have to do is click on the integrated media share button available next to the search bar. Apart from these features, Torch Browser free download makes it easier to download shows and movies. It does this with Torch Torrent, a built-in torrent downloader that makes downloading music, shows, movies, and applications quite simple. The software also features a Download Accelerator that speeds up downloads by breaking up large files into small pieces and then downloading them simultaneously. Does the Torch browser have a VPN? When you complete downloading Torch Browser, you will need to give access to a third-party VPN app. However, that's not to say that you get access to a free VPN. If you wish to hide your IP address while torrenting or surfing the web, you will need to download a VPN separately. Is Torch a safe browser? Since Torch Browser is based on the popular Chromium platform, it's safe to use and free from malware or viruses. The browser doesn't crash often, nor does it have any bugs or issues. The only drawback of the Torch Browser is that you won't be able to use as many extensions as you're currently using. This is because the Torch Browser is incompatible with most Google Chrome extensions. Should I download Torch Browser? If you're looking for a browser to easily download media files, opt for Torch Browser. Based on Chromium, Torch features a clean and simple interface with several media-focused features. It provides users with a built-in torrent downloader, media grabber, music player, download accelerator, and more. The latest version of the Torch Browser also lets users import bookmarks, passwords, history, and more from the web browser they're currently using. Stay up to date with latest software releases, news, software discounts, deals and more. Subscribe March, 22nd 2022 - 1.6 MB - Freeware Latest Version: Torch Browser LATEST Requirements: Windows 7 / Windows 8 / Windows 10 / Windows 11 User Rating: Author / Product: Torch Media Inc. / Torch Browser Old Versions: Select Version Torch Browser Filename: TorchSetupSub.exe Details: Torch Browser 2022 full offline installer setup for PC 32bit/64bit Torch Browser is a free and unique software that offers you powerful browsing together with built-in media downloading and sharing features. Torch Browser for Windows is based on the Chromium technology platform, giving it fast browsing capabilities. With Torch, you can share sites you like, download torrents, accelerate downloads, and grab online media - all directly from the web browser. A Note: This software is no longer available for the download. This could be due to the program being discontinued, having a security issue or for other reasons. If you are looking for alternatives, we recommend you to download Brave or Opera. Everything you need is a just click away with Torch, so you don't have to use or download additional programs and tools. The Browser software has a user-friendly interface, is easy to install, and safe to use. Features and Highlights: Media Grabber - Download streaming videos and audio in one-click! allows you to save audio and video from the web using the integrated Media Grabber. Once you find video or audio online that you want to save, click on the Media Grabber button to easily save it without having to use external programs, converters, or extensions. The audio will automatically be saved in a separate file. Torch Torrent - Download torrents directly from your browser! The Browser's built-in torrent manager makes downloading torrent files simple. You can download torrents without the hassle of any additional software, and manage your torrent downloads straight from your browser. Click the Torrent button to get started. You will see all of your active torrents there. It is downloading simplified. Torch Player - A stunning player built into Browser! Torch Browser for PC is the premiere browser for media lovers so it is only fitting that it includes its own media player. Click Play on a torrent in Torch Torrent and it will automatically open in the stunning Torch Player. You don't even need to wait for the torrent to finish downloading, Torch Player can play even partially downloaded torrents. Torch Facelift - Redesign Your Facebook! Want your Facebook to fit your style? Visit Facebook with Browser and click the Facelift button. With Facelift, you can personalize your Facebook by changing the background, fonts, colors, and more. You can also choose one of the beautiful themes. Best of all your friends whose browser with Torch can see your design on your Facebook profile page. Torch Music - A free music player right in your browser! Torch Music is a unique music portal that offers all your favorite music along with videos from YouTube. You can play full albums, or find the songs you love. Make your own playlist or click on the Wiz button to have a playlist made for you. With this Browser, you can easily control your music. You don't even have to leave your current tab in order to play, pause, switch songs, or control the volume. Torch Games - Have more fun with your browser! Click on the Torch Games button and you will find hundreds of games to play. All of the games are free and you can play them instantly, no waiting for downloads and no signing in. Torch Games offers you all sorts of games so you are sure to find something fun. Try out puzzle games, racing games, card games, arcade games, and much more. Torch Drag & Drop - Search and share in an instant! Surfing the web has never been easier with Torch Browser's new Drag & Drop feature. You can translate and search text or share links and photos. Simply drag and drop the link, word, or photo to the relevant tile. No more copying and pasting or switching between tabs. The options include web search, YouTube, Wikipedia, Image search, Facebook, Twitter, and more. Share - Sharing online! Share links and sites on Facebook and Twitter with one convenient button. With the program integrated sharing you can share the best of the web with your Facebook friends and Twitter followers in an instant without switching tabs or leaving the page. You don't need to interrupt your browsing to

share.Download Accelerator - Download FasterIt offers a built-in Download Accelerator which speeds up your downloads. The technology works by dividing the files and downloading them simultaneously via multiple connections. What that means is that you can download super-fast, faster than with any other browser out there. Why settle for less?
